N208 Advanced Physiology and Pathophysiology

Timeframe: Fall Quarter 2015, one or two paid teaching assistants (with fee remission) and up to three teaching residency students (for academic credit) to assist with N208 Advanced Physiology and Pathophysiology.

In partnership with educational technology staff, the curriculum will be updated over the summer, so TAs will have the opportunity to participate in all aspects of course development and implementation.

Required:

• Strong background in Physiology and Pathophysiology
• Available to lead review sessions Wednesdays, 12 - 1 p.m.
• Excellent communication/presentation skills

Preferred:

• Previous teaching experience
• Previous experience with CLE Moodle as a TA
• Available to attend class on Wednesdays, 10 a.m. - 12 p.m.
• Doctoral students may have more time flexibility to meet the requirements of the position
• Available to help with curriculum development this summer

Contact: If interested, send CV to Doranne Donesky at doranne.donesky@ucsf.edu.
